

Authorising Credit Card Transactions Processed Manually

Fiserv uses touch-tone telephone and Interactive Voice Response (IVR) technology to streamline the card authorisation process for you.

The Key Features of This Service Include:

- Eliminates operator queuing delays as the service is completely automated.
Note: Assistance from an operator can still be obtained at any time
- Authorisation can be obtained for multiple card transactions during a single call, including mail and telephone order requests
- Instant access is available to a specialist operator in a security situation or if you suspect fraudulent card use

Call 1800-243-444

Obtaining Authorisation

1. Dial **1800-243-444**.
2. Press 1 then press 1.
3. Enter your merchant number, then press the # key. If you normally use an EFTPOS terminal, please use your manual merchant number (Eight digit merchant ID). This information can be located on your merchant statement or a receipt.
4. Select the transaction type – 1 Card Present, 2 Telephone or Mail Order.
5. Enter the credit card number, then press the # key.
6. Enter the card expiry date, then press the # key.
7. Enter the CCV, (the last three digits on the back of the card amongst the signature strip), and press the # key.
8. Enter the transaction amount in dollars and cents, ignoring the decimal point, then press the # key.
9. Confirm the amount. 1 if correct, 2 to change the amount.
10. Listen for the authorisation response and record on the manual sales voucher.

If further transactions are required

Press 1 and then follow the prompts.

The Important Touch-Tone Key Strokes to Remember Are:

- # The hash # character tells the system that you have finished entering the field.
- * The asterisk * clears the last information entered and repeats the last prompt.
- 0 The number zero connects you to the operator.

Error Corrections

- If the system does not receive information from you within five (5) seconds you will be prompted for data three (3) times
- If after three (3) attempts the information you have entered is still incorrect you will automatically be transferred to an operator to complete the transaction
