• **What is Interim Rent?**

Typically, Interim Rent is charged along with your first monthly payment. Interim rent is the *per diem* charge assessed for the period between the delivery date and your initial payment date (partial monthly payment). It is possible that Interim Rent will not be charged until your second payment depending on when you lease agreement was commenced.

• **Example:** If your delivery date was the 20th of the month and your due date is the 1st of the next month, your first payment would be 10 days of rent plus your first month rental (rentals are billed in advance). In this example, if your monthly payment is $40, your first payment would be $13.33 (10 days) + $40 (first month rent = $53.33 plus tax.

• **What is Property Tax Fee and when is it due for my leased equipment?**

Pursuant to section 4b of your equipment lease agreement. FDGL is assessing a handling fee to process any taxes that are required by your state and local government for the use of your lease pos equipment. A letter will be sent 30 days in advance of this annual charge to indicate the amount that will be assessed and charged on your next billing date and will be included in the total amount due from your checking account.

• **Why does the lessee have to pay property taxes if FDGL owns the equipment?**

Under the terms of the lease agreement, the lessee agreed to reimburse First Data Global Leasing for any such taxes paid on the leased equipment, and for the costs incurred in processing.

• **Is sales tax billed on the leased equipment?**

Yes. Sales tax is determined by individual state taxing authorities and is either assessed upfront or added to the monthly payment. Most states assess the tax on the monthly payment. In Michigan, for example, a payment of $39.99 would be assessed 6.0% and the monthly payment would be $42.39. The following states assess in advance rather than on the monthly payment: For example:

- Hawaii
- Illinois
- Ohio
- New Jersey
- Maine
- *Note, taxes are subject to change*
