

Clover Check Acceptance Online

Accept checks with no stress.

Maximize sales.

Taking online checks comes with some worries, including the possibility of fraud and chargebacks. But for some customers, paying with their checking account online is just more convenient. That's why there's Clover Check Acceptance.

Created by TeleCheck, the industry-leading check acceptance provider, Clover Check Acceptance means you can accept checks online with more confidence. We'll assess risk and advise whether to accept or decline the transaction in seconds so you can close a sale instantly. Best of all, approved transactions will be funded the next banking day.

Don't miss the chance to make an online sale, especially one that will cost you less to process.

The value of online check acceptance.

- **Save money on transaction fees.** Accepting checks is a low-cost alternative to credit/debit.
- **Gain new and repeat customers.** Let customers make online purchases, recurring payments, or even reload a prepaid card using their checking account.
- **Optional warranty service.** Fraud responsibility is transferred from your business to TeleCheck.

Did you know?

Millions of Americans have checking accounts and no debit or credit cards. If you're not set up to accept checks, you could be missing out on potential customers.

It's so easy.

1. Customer visits your website to make a purchase and selects the option to pay by checking account.
2. Account details are submitted to TeleCheck either directly or through your eCommerce payment gateway.
3. Using advanced analytics, TeleCheck assesses the risk associated with the transaction and issues a decision in real-time.
4. You receive funding for approved transactions on the next banking day by 4 p.m. CST.

A perfect fit for your online business.

Clover Check Acceptance Online is a good fit for businesses that need to accept payments one time or on a recurring basis.
