

First Data Business Track[®] Reporting

Payment processing information at your fingertips

Save valuable time, protect against losses and effectively manage your cash flow with Business Track[®]. Flipping through pages of paper statements, manually creating reports, and balancing daily payment terminal activity is time consuming and frustrating. Simplify the task of managing your payment processing with First Data's Business Track online reporting solution.

With just a computer and Internet access, you can access summary data or detailed information about your payment processing. Business Track makes it simple to generate reports by location, selected groups or across multiple locations. Using this comprehensive information you can easily conduct sales audits, manage processing fees, investigate of chargebacks, and reconcile your checking account.

To get started, go to www.businesstrack.com and click "Enroll". And, compliment your online Business Track[®] Reporting by downloading our Business Track Mobile app for your Apple[®] and Android[™] devices as well.
