

# Business Track<sup>®</sup> Mobile

## Compliment your online Business Track<sup>®</sup> Reporting Tool

Business Track Mobile makes it quick and easy to access your Business Track Reporting information anytime and anywhere using your iPhone<sup>®</sup> or Android<sup>™</sup> device.

You can view a snapshot of your daily business on the Daily Pulse screen including Sales information, Number of Customers, Deposits, Business impacts, look back to other days or even compare days.

Using the Business Track Reporting website, you can then access summary data or detailed information about your payment processing to generate reports and conduct sales audits, manage processing fees, investigate of chargebacks, and reconcile your deposits.

Business Track Mobile is available 24/7 so you can access your reporting information at your convenience, whenever the time is right for you.

Log into [www.businesstrack.com](http://www.businesstrack.com) to download the free Business Track Mobile app to compliment your Business Track Reporting profile and check on your business from anywhere.

# First Data<sup>™</sup>
