

MineralTree® Invoice-to-Pay Solutions

Drive more fee income from your mid-market commercial customers.

When you help businesses become more efficient, you become more than their banker. You become a valuable business hub.

In today's rapid paced world of global commerce, one area lags behind in a logjam of paperwork and inefficient processes — the accounts payable department.

MineralTree Invoice-to-Pay Solutions provides your commercial clients with end-to-end payment automation, and it integrates with their back-office systems for a seamless business-management experience.

An automated accounts payable solution that helps create a seamless business management experience. A breakthrough for businesses, it's the type of product that can help you attract and retain more commercial clients.

Benefits to Your Business

Operations Efficiencies

With the ability to handle multiple payment types through one simple interface, our solution automates the AP cycle and helps to provide a secure and compliant back-office.

Cost Savings

Your commercial customers can lower their costs by replacing a time-consuming AP process with a system that's streamlined and designed for easy use.

Customer Relations

Drive stronger relationships by providing your commercial clients with solutions that simplify their business management.

Sound Familiar?

The typical bill pay process for business customers can be inefficient and time-consuming.

- Receive / record paper invoice
- Chase co-workers for approvals
- Staple documents to invoice
- Print paper check for payment
- Track down your CEO/CFO to sign
- Collate paperwork manually
- Stuff envelopes and apply postage
- Bring payments to local mailbox

A Simplified Experience

- Auto-sync with major accounting packages — QuickBooks™, Intacct®, Microsoft Dynamics®, NetSuite®
- Handle multiple payment types through one simple interface
- Approve payments on-the-go with a mobile app or from a desktop
- Control outgoing cash flow with precise timing
- Add comments and electronically attach backup documentation
- Review detailed reports and search invoice and payment history
- Increase efficiency, improve internal accounting processes and streamline audits
- Lower processing costs and save time
- Identify opportunities, segment and target customers, and execute highly effective campaigns with MineralTree TargetSphere™ customer analytics

MineralTree®

Invoice-to-Pay Solutions

A one-of-a-kind solution that automates making invoice payments into a streamlined efficient system. Your commercial customers can lower their costs by replacing a time-consuming AP process with a system that's streamlined and designed for easy use. Additionally, they can further grow their businesses by saving time and focusing on what's most important — collecting payments, or offering value-added services to their own clients.

Automate Payments Processing End-to-End

First Data's solution automates many phases of a business' invoice and payment processing, including:

- Invoice Capture
- Invoice Approval
- Payment Approval
- Payment Execution

One Simple Interface Handles It All

When you provide solutions that simplify business management, your commercial clients will turn to you for their business needs. MineralTree Invoice-to-Pay Solutions automates the AP cycle while helping to provide a secure and compliant back-office.

Silver**GUARD**

SilverGuard Protection provides up to \$100,000 reimbursement per customer, for losses that result from unauthorized access of your client's online business bank account. Payments processed outside the MineralTree Invoice-to-Pay solution are not eligible. Additional terms and condition apply.
