- +7.4% San Francisco
- +4.6% Philadelphia
- +4.5% Miami

**Regional Spend**
- +4.5% West Winner
- +2.2% Northeast Laggard

**eCommerce's portion of Total spend**
- 31%
Total spend

The last three quarters show a strong and steady rise in Total spending growth

With 1Q18 Retail spend of 1.6%, Non-Retail spend such as in Services, Gasoline and Travel drove a 4.8% increase in total spend.

Unlike the prior two quarters, 1Q18 finished strong as March was, by far, the fastest-growing month.

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels.
Source: First Data aggregated same-store spending data.
Non-Retail growth has significantly exceeded Retail growth in each of the past five quarters.

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels.
Source: First Data aggregated same-store spending data.
Total spend by channel

Brick & Mortar and eCommerce growth curves look *generally* similar in shape over the last five quarters.

The same industries are driving growth in both channels:
- Retail
- Restaurants
- Gasoline Stations
- Travel

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels.  
Source: First Data aggregated same-store spending data.
Total spend distribution by channel

Not surprisingly, eCommerce continues to capture a growing share of total spend

1Q18 saw a notable jump in eCommerce spend share, primarily driven by Retail, Restaurants, Travel, and Leisure

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels. Source: First Data aggregated same-store spending data.
Total spend by region

The West led all regions for spending growth, followed by New England.

Note: Brick & Mortar only.
Source: First Data aggregated same-store spending data.
Total spend by top US cities*

Many of the top growing US cities in 1Q18 also saw an acceleration in growth from full year 2017 levels

Total spend by component

A larger portion of growth in Total spend has come from growth in transactions, rather than ticket size.

Transaction growth has outpaced average ticket growth in four of the past five quarters.

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels. Source: First Data aggregated same-store spending data.
Retail spending growth continues to lag Total spending growth

Retail spending growth remains somewhat volatile on an intraquarter basis.

Note: Figures include all tracked spend across all Retail categories, including Brick & Mortar and eCommerce channels. Source: First Data aggregated same-store spending data.
Segment look: Luxury

eCommerce continues to be the primary driver of growth in the Luxury category

Brick & Mortar Luxury started a notable turnaround in growth trends in 4Q17

The prime drivers of total Luxury growth in 1Q18 were Jewelry Stores, Women’s Accessories, and Specialty Apparel

Note: "Luxury" is defined by a collection of well-known consumer brands which offer high-priced designer clothing, accessories, and shoes. Source: First Data aggregated same-store spending data.
2017 was a great year for QSR growth, which continues into 1Q18

Digital enablement has been key driver of QSR growth

Upscale Dining struggled significantly during the last three quarters

Casual, Family, and Fast Casual Dining were weak in 3Q17, but have been on an improving trend the last two quarters

Note: “Casual Dining” includes full service restaurants which serve alcohol. “Family Dining” includes full service restaurants which do not offer alcohol. “Fast Causal” is a quick service restaurant that serves wine/beer. “QSR” represents traditional fast food restaurants. “Upscale Dining” includes full-service restaurants which serve alcohol, and are characterized by certain service standards and comparatively higher average ticket sizes. Data does not include coffee houses and other sub-categories of Dining.

Source: First Data aggregated same-store spending data.
Average ticket size

Growth in average ticket size has been *generally* slowing over the last several quarters.

In 1Q18 Retail avg. ticket size was $73.25; Total avg. ticket size was $50.76.

Note: Figures include all tracked spend across all categories, including Brick & Mortar and eCommerce channels. Source: First Data aggregated same-store spending data.
Retail spend by category

Brick & Mortar showed marginal improvements in 1Q18 for some categories

Notable growth acceleration in 1Q18 across Specialty Retail, Clothing, and General Merchandise was driven by better Brick & Mortar performance

Methodology

› All data is proprietary transaction data from First Data’s systems
› Our analysis includes all card-based forms of payment and is based on actual, same-store spending activity
› Analysis covers transaction activity during January 2017 through March 2018
› All growth rates reflect a year-over-year basis
› Data is grouped into “Retail” and “Total”
   – “Retail” includes Electronic & Appliances, Building Materials, Clothing & Accessories, Furniture/Home Furnishings, General Merchandise, Sporting Goods, Health and Personal Care Stores, Specialty Retail
   – “Total” includes “Retail”, plus all other SpendTrend-tracked industries including Food & Beverage Stores, Restaurants, Hotel, Leisure, Travel, Aftermarket Vehicle Parts, Gasoline Stations, and Services
