Retail ATM Program
Triton® RL5000 Model

The Triton® RL5000 model automatic teller machine (ATM) brings a superior level of performance, reliability and customization options to the embedded PC ATM industry.

This durable ATM solution allows merchants to offer their customers the convenience of an on-site ATM, which may lead to increased customer traffic, increased sales volume and an additional revenue source. From small specialty stores to larger petroleum and convenience stores, the Triton RL5000 ATM is easily configured to meet the needs of merchants of all sizes.

The Triton RL5000 ATM features the user-friendly Microsoft® Windows® CE 5.0 operating system and has a large capacity for storing journal records. The prominent 10.4" LCD display and sleek profile make the ATM an eye-catching component of any merchant location.

Many other on-site ATM programs can be expensive and difficult to implement, while the Triton RL5000 ATM offered by First Data is a complete ATM solution that includes installation, comprehensive training, technical support, service and reporting features.
